

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

DR. SCOTT'S ELECTRIC HAIR BRUSH.—A good hair brush cannot be bought for much less than the sum for which Dr. Scott's electric brush can be secured. This brush, aside from the curative properties claimed for it, is a well made article, handsome in appearance and first-class in every respect. It is not a metallic brush, but is made of pure bristles. Its electrical qualities are very strong, and will manifest themselves by causing the needle of a magnetic compass to vibrate even with a thick book on the top of a table intervening. Violent vibrations of the needle can be caused by passing the brush quickly back and forth within four or five inches of the compass. It is claimed for this brush that its use will cure headaches and neuralgia, will remove dandruff, and in most cases will prevent the hair from falling or turning gray. In support of this claim many testimonials from responsible persons are adduced. Evidently its use would be of great benefit wherever electricity would prove beneficial, and could not in any event result in harm.—*Boston Journal, May 28, 1881.*

SCIENCE

A WEEKLY JOURNAL OF SCIENTIFIC PROGRESS.

Vol. II, No. 61, - - - August 27, 1881.

CONTENTS.

The Cincinnati Meeting of the American Association for the Advancement of Science (Edit.); Report on the Geology and Resources of the Black Hills of Dakota, by L. P. Gratacap; The Great Primordial Force, by Henry Raymond Rogers, M. D.; The Tidal Evolution of the Moon; Mr. Darwin on Dr. Hahn's Discovery of Fossil Organisms in Meteorites; An Afternoon on Passaic River; Selenographical; Books Received; "Sea Mosses;" Sun Spots (War Office Reports); Weekly Meteorological Report, by Daniel Draper; Notes, &c., &c.

THE FAMOUS "HUB PUNCH."

Handy to have in the House.

HUB PUNCH

Warranted to contain only the best of Liquors, Choice Fruit Juices and Granulated Sugar.

A Delicious Drink with fresh Milk, Ice, Soda or Hot Water, Lemonade or with Fine Ice.

GOOD AT ALL TIMES

AND JUST THE THING FOR USE BY

Families, Hotels, Clubs, Picnic, Camping, Yachting, Excursion, Sleighing and Surprise Parties.

Invaluable for a little treat when a friend drops in.—
N. Y. Evening Post.

Connoisseurs pronounce it Unrivalled.

Messrs. Acker, Merrill & Condit and Park & Tilford, the well-known family grocers and wine merchants of New York, write as follows concerning it:

Messrs. C. H. Graves & Sons, Boston. DEAR SIR: The increased sales of Hub Punch among our always most critical customers is evidence of its superior merit.

ACKER, MERRALL & CONDIT.

Hub Punch is growing in favor among our customers, and we hear many complimentary opinions on its merits. The increasing popularity of the article is pleasant testimony to your success in using exclusively the best and purest components.

PARK & TILFORD.

It is made from the best imported Rum and Brandy, the juice of Lemons, Limes and other fruits, and the finest quality of granulated Sugar.

It is, in short, the perfection of Punches, purer, more delicious, healthful and invigorating than any other article of mixed drink that has ever been devised.

"A sip is like nectar."—*Boston Courier.*

"Delicious beyond description."—*Boston Transcript.*

See that you get the Genuine, and take no Substitute offered.

SOLD BY ALL FIRST-CLASS GROCERS AND WINE MERCHANTS.

COOL
ON ICE.

THE
HUB
PUNCH.

"Punch and the Holidays are the most intimate friends, going together as naturally as man and wife. But it is a great trouble to make Punch, and many people who like the beverage lack the savoir faire to brew it. Hub Punch is indispensable where ever its merits are known."—
Spirit of the Times, N. Y.

This is prepared from an original recipe by an adept for his friends, but now given to the world as a standard article.

It is a most convenient addition to family stores, and heads of families, in making up their list of supplies, should not forget to order it of their grocer, druggist or wine merchant. Added to the good things of the table it undeniably enlarges the pleasures of life, and encourages good fellowship and good nature if rightly enjoyed."—
Springfield Republican.

Our success in selling your Hub Punch has indeed surprised us, we having sold within the past three months a larger quantity than we anticipated selling in twelve. Our large jobbing trade now call freely for it,—both here and in Chicago. We have heard from all sources the highest eulogiums passed upon it.—
Smith & Vanderbeek, New York, Chicago and Paris.

THE HUB PUNCH is prepared solely by Messrs. C. H. GRAVES & SONS, 35 Hawkins Street, Boston. It is sold in bottles only, is quite as palatable in winter with hot water as it is in summer with cold. The manufacturers guarantee the purity of the liquors of which it is made, as they are of their own importation. Every precaution has been taken against counterfeiting what must inevitably become one of the most popular preparations of Punch among connoisseurs.—
Saturday Evening Gazette.

CAUTION.—The name and title—"HUB PUNCH"—is adopted as a Trade Mark. All unauthorized use of this Trade Mark will be promptly prosecuted. C. H. GRAVES & SONS, Boston, Mass.

DELICIOUS "HUB PUNCH."

FOR DYSPEPSIA, MENTAL and PHYSICAL EXHAUSTION, NERVOUSNESS, DIMINISHED VITALITY, URINARY DIFFICULTY, etc.

FORMULA :

Each fluid drachm contains

5 1-2 grains free Phosphoric Acid (PO_5 .)
 3 grains Phosphate of Lime (3 CaO PO_5 .)
 1-2 grain Phosphate of Magnesia (3 MgO PO_5 .)
 1-3 grain Phosphate of Iron ($\text{Fe}_2 \text{ O}_3 \text{ PO}_5$.)
 1-4 grain Phosphate of Potash (3 KO, PO_5 .)

Total amount of Phosphoric Acid in one fluid drachm, free and combined, 7 grains.

It contains no pyro-phosphate, or meta-phosphate of any base whatever.

Prepared according to the directions of Prof. E. N. HORSFORD, of Cambridge, Mass.

There seems to be no difference of opinion in high medical authority of the value of phosphoric acid, and no preparation has ever been offered to the public which seems to so happily meet the general want as this.

It is not nauseous, but agreeable to the taste.

No danger can attend its use.

Its action will harmonize with such stimulants as are necessary to take.

It makes a delicious drink with water and sugar only.

Prices reasonable. Pamphlet giving further particulars mailed free on application to manufacturers.

Physicians desiring to test it will be furnished a bottle free of expense, except express charges, if they mention "SCIENCE."

MANUFACTURED BY THE

RUMFORD CHEMICAL WORKS, PROVIDENCE, R. I.

W. A. HAMMOND, M.D., late Surgeon-General U. S. Army, said that under the use of arsenic and Horsford's Acid Phosphate, a young lady rescued her reasons who had been rendered insane by a dream.

DR. M. H. HENRY, of New York, says: Horsford's Acid Phosphate possesses claims as a beverage beyond anything I know of in the form of medicine, and in nervous diseases I know of no preparation to equal it.

DR. REUBEN A. VANCE, of New York: The preparation on which I place the most reliance is Horsford's Acid Phosphate.

The late WINSLOW LEWIS, M.D., of Boston, said: Having in my own person experienced those ills for which the Acid Phosphate is prescribed, I having found great relief and alleviation by its use, most cheerfully attest my appreciation of its excellence.

The Anglo-Swiss Condensed largest manufacturers of Condensed ed a superior method of combining the manufacture of a reliable food the medical profession and others in- the constituent parts of this prepara- ed on the lable of every can. Persons interested are invited to try this article and compare the results with those obtained from other foods. The advantages offered by the Anglo-Swiss Company are scientific preparation upon a large scale, thus assuring superior quality at a reasonable price. The name is

Milk Co., of Cham, Switzerland, the Milk in the world, having discover- milk and cereal foods, have begun for infants and invalids. In order that terested may know precisely what tion are, a chemical analysis is print-

ANGLO-SWISS MILK FOOD.

The *Anglo-Swiss* brand of Condensed Milk is also a superior article; 25 millions of cans sold in 1880.

Ask your Druggist or Grocer for one of the little pamphlets issued by the Anglo-Swiss Company, telling how Condensed Milk and Milk Food should be prepared for infants. It has saved many lives.

 The starchy constituents, ordinarily objectionable in Infants' Food, are changed to Dextrine and Sugar, and rendered soluble and easily digestible by heating Anglo-Swiss Milk Food.

THE TRADE SUPPLIED BY H. K. & F. B. THURBER & CO.,

WHO WILL MAIL PAMPHLET IF NOT OBTAINABLE ELSEWHERE.
